

OHS Application for 2010 Volunteer Programs

E-mail to applications@oneheartsource.org

Thank you for your interest in One Heart Source! If you are looking for an opportunity to make a difference in a child's life while learning hands on the struggles of children orphaned by AIDS in Tanzania, we are pleased to have you apply to our 2010 programs.

The volunteer program is designed to effectively and efficiently attack the vicious cycle of AIDS and poverty in Tanzania. It is important to note that within the structure of the program, it is imperative for our volunteers to show initiative and resolve in providing their services. Our multi-tiered volunteer experience will allow you to not only become the means by which the vision of the organization will be executed, but will also provide you with the knowledge and know-how required for life long success in assisting developing countries.

One Heart Source is committed to promoting the well-being, growth, and development of abandoned children and orphaned children in underdeveloped and developing countries through high-quality care and education programs. The purpose of empowering education is to promote academic enrichment, life skills, and character development of the children to build effective lives and become potential community leaders, so that they may continue the cycle of positive social change.

This application has four sections. Please e-mail your application to applications@oneheartsource.org attached as a Word document and in the body of your e-mail. OHS will reply to confirm your application has been received, and a volunteer programs manager or coordinator will contact you to schedule an interview.

Thank you again for your interest. We look forward to hearing from you soon!
